

std::false\_type

```
classDiagram
    class IsStaticCastable {
    }
    class std_false_type {
    }
    IsStaticCastable --|> std_false_type
```

The diagram shows a class hierarchy. At the bottom is a class box for `IsStaticCastable< From, To, class >` with a grey background. Above it is a class box for `std::false_type` with a white background. A blue arrow with an open triangle head points from the top of the `IsStaticCastable` box to the bottom of the `std::false_type` box, indicating inheritance.

IsStaticCastable< From,  
To, class >
